

I deeply appreciate your active support of our five-year Global COE program “Reshaping Japan’s Border Studies.” The program successfully concluded in March of 2014. I would like to express my deep gratitude for all those involved. The Eurasia Unit for Border Research of Japan (UBRJ), Hokkaido University, succeeds the GCOE’s achievements and activities, including publication of the journals. I would like to express my hope for your continued support of our activities.

Akihiro Iwashita
